Yellowknife, February 2010 to February 2013

Comparing January to February 2013, overall prices in Yellowknife increased by 0.2%. Most major components experienced a price increase from last month; the two exceptions were price decreases for household operations & furnishings and clothing & footwear.

CPI values for Yellowknife and Whitehorse include estimates of price changes for owned accommodation based on the price of rental accommodation. As a result, the all-items indexes published for these centers are not strictly comparable to those for Canada and Edmonton.
